J. M. HAWKINS.

The European war news continues to be slightly mixed.

See the "figgers" the Republican papers are multiplying in the interest of the dear people! It is an axiom that figures don't lie: how gratifying it would be if we could truthfully say the same of the figurers!

If you don't like a war tax in time of peace vote for Peppy and Akins—Perry County Republican.

But if you do like the Republican way of having Uncle Sam make good that \$61,500 lost from the St. Louis Sub-Treasury, vote for 'em—vote early, often and late. You can't get too much of a good thing.

The little Trays, Blanches and Sweethearts of the Republican press are following the lead of their boss whipper-in, howling their choruses of misrepresentation, half-truth and falsehood. But it will not avail them, and after the hunt is over they'll retire disgusted to their quarters, "all in," but maybe a little wiser.

EVERY Democrat who feels that the administration of his party under President Wilson has been good—and what Democrat does not?—should make a resolve to cast a straight Democratic vote on the 3d of November. Let us all stand shoulder-to-shoulder for the principles we believe in, and elect the men whom the party has chosen to represent us.

In my opinion the railroad companies are justified in their appeal for higher rates. The cost of everything pertaining to living has greatly advanced during the past few years, as has also every article used in trade, construction and transportation. The reader will do well to read the railways' plea on the first page of this paper. It is logical, conservative and instructing. Just compensation should go with every business and the public, I believe, is in favor of it. Let the question be understood, and judgment rendered in accordance with the facts.

A FEW years ago the high tariffs wanted nothing but the Home Market for the American producer and manufacturer. They desired no truck with the foreigner, and wanted the tariff wall built sky-high to that end. We didn't need the foreigner in our business, you know. Well, the present war has cut out our European trade, and our Republican friends ought to be happy, but they're not. The all-sufficing Home Market doesn't seem to fill the bill, albeit that detested "pauper labor" is intensely engaged in throat-cutting and cannot compete with the American working-man.

"THE Democracy is about to bring forward a war budget. The country at peace it puts in an emergency demand for additional revenue of \$100,000,000. Its fiscal measures have broken down and proved absolutely unresponsive. They have stuck in the mire."—(Many partisan organs.)

This is idiotic. It is characteristic of the dishonest, one-sided method of political discussion. Yet never a fool in all the land who does not know it to be in every intent and purpose an absurd lie. The war in Europe has cut our revenues at least \$100,000,000 annually. The loss must be made good or the Government goes to protest. What is to be thought of a newspaper that would print such stuff?—The Louisville Courier-Journal.
